## HOUSE OF HYDE

At NYFW 2024, I had the honor of attending The Blonds' exclusive after-party in NYC, wearing my own designs, each a testament to innovation and craftsmanship.

The Signature Winged Lapel Suit speaks to my dedication to redefining modern tailoring, elevating silhouettes with bold architectural precision. The Black Baymen Suit, an evolution of my signature design, blends effortless elegance with contemporary edge, embodying versatility for the modern wearer.

A standout detail in my designs is our Hyde Signature Belt, inspired by bodybuilding weightlifting belts. Beyond its striking aesthetic, this belt enhances posture, provides support, and cinches the waist to create a powerful, structured silhouette. A fusion of strength and style, it transforms every look into a bold statement.

As a designer, my vision is clear: heritage craftsmanship meets fearless innovation, creating garments that transcend time, borders, and convention.

# COMMONWEALTH SUB UMBRA FLOREO LUXURY

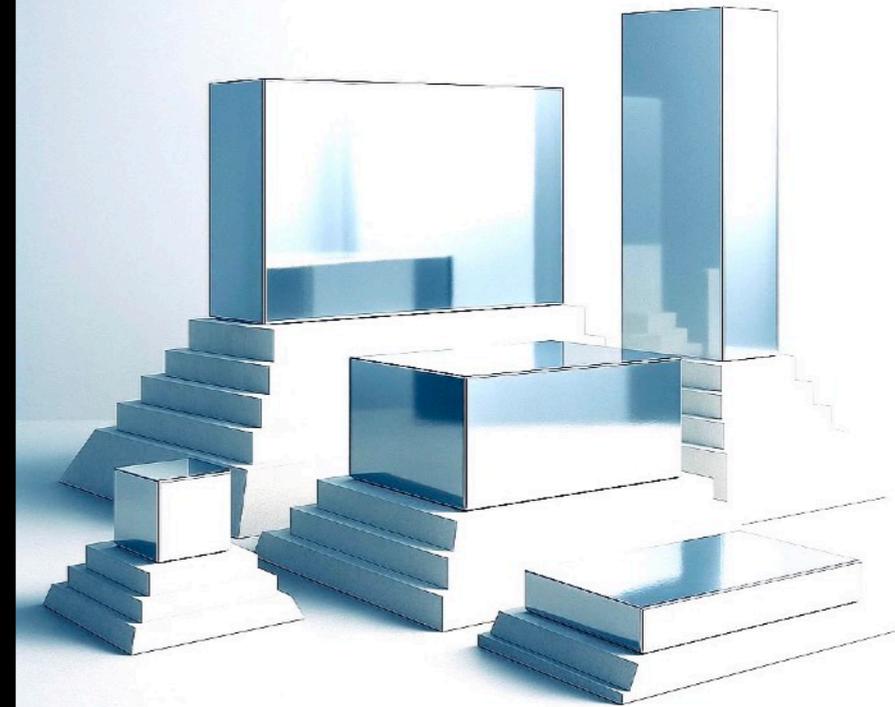

The Sylvian Hyde brand transforms the Commonwealth heritage into a new global luxury. Belize's history, from the royal visits of Queen Elizabeth II to its foundational connection to the British Crown, is inseparable from the Hyde legacy. Our ancestor, James Hyde, served as an agent of British Honduras - Belize, and the family's firm, Hyde and Hodge Co., were major exporters of mahogany and logwood a vital dye source for British textiles.

This history confirms that Belize and the Hyde family have always been connected to global luxury and trade. Today, the Sylvian Hyde Atelier brings this lineage full circle. My designs are a modern, rebellious interpretation of British tailoring, infused with Caribbean spirit and precision. By creating pieces that rival the world's best, I am reasserting our family's place at the pinnacle of luxury, a connection that began centuries ago and is now definitively reclaimed by my creations.

The Sylvian Hyde brand is rapidly defining the future of luxury with an independent spirit that defies convention. As a self-taught designer reviving a 386-year-old family legacy, our success is a testament to unyielding innovation and a distinct aesthetic. This growth is evidenced not just in our collections, but in the brand's expanding influence across media and entertainment.

## **The Hyde Design Language**

Our design philosophy seamlessly bridges our rich Belizean heritage with modern luxury, from our tailored apparel to our accessories. The featured eyewear procreate sketches and mirror-finish packaging concepts illustrate the consistent, high-impact design language that differentiates the brand and resonates with a global luxury consumer. This bold, architectural approach underpins every element of the Sylvian Hyde universe.

## **Proven Industry Recognition**

Independent success has drawn significant industry attention. Invitations to collaborate with high-profile platforms like STARZ's P-Valley for its third season, and the prestigious Advancements with Ted Danson series, validate the brand's cultural relevance and forward-thinking vision. These partnerships demonstrate that Sylvian Hyde is not only setting design trends but is also recognized by major media outlets as a leader and innovator in the luxury fashion space.

# MY VISION OF THE FUTURE

## THE MASTERMIND

The Sylvian Hyde brand is on an exponential trajectory to become the world's first truly comprehensive, Black-owned, Belizean-heritage luxury lifestyle conglomerate. This is a master plan for maximum scale, designed not just to compete, but to disrupt and lead in every elite category globally. We aim to transcend the traditional fashion house model by integrating all facets of high-end living into a unified, powerful ecosystem.

The immediate future involves realizing this full scope of potential and ensuring continuous market disruption and profit diversification. This includes a major expansion of the core business through the launch of our Womenswear Line, growth in Leather Goods and Accessories, and the opening of our first international Flagship Store. Simultaneously, we will begin the development of our signature ecosystem by opening the Baymen's Cove Resort on Hick's Caye, fully expanding into High Jewelry and Fragrances, and moving forward with the Hyde Concept Car.

This is not a portfolio of separate projects; it is a single, integrated vision. Every venture is engineered to reinforce the others, creating a Hyde Lifestyle brand experience of unparalleled scope and exclusivity. We invite partners to invest in a brand that is not merely following trends but actively redefining the future of global luxury and heritage for the 21st century.

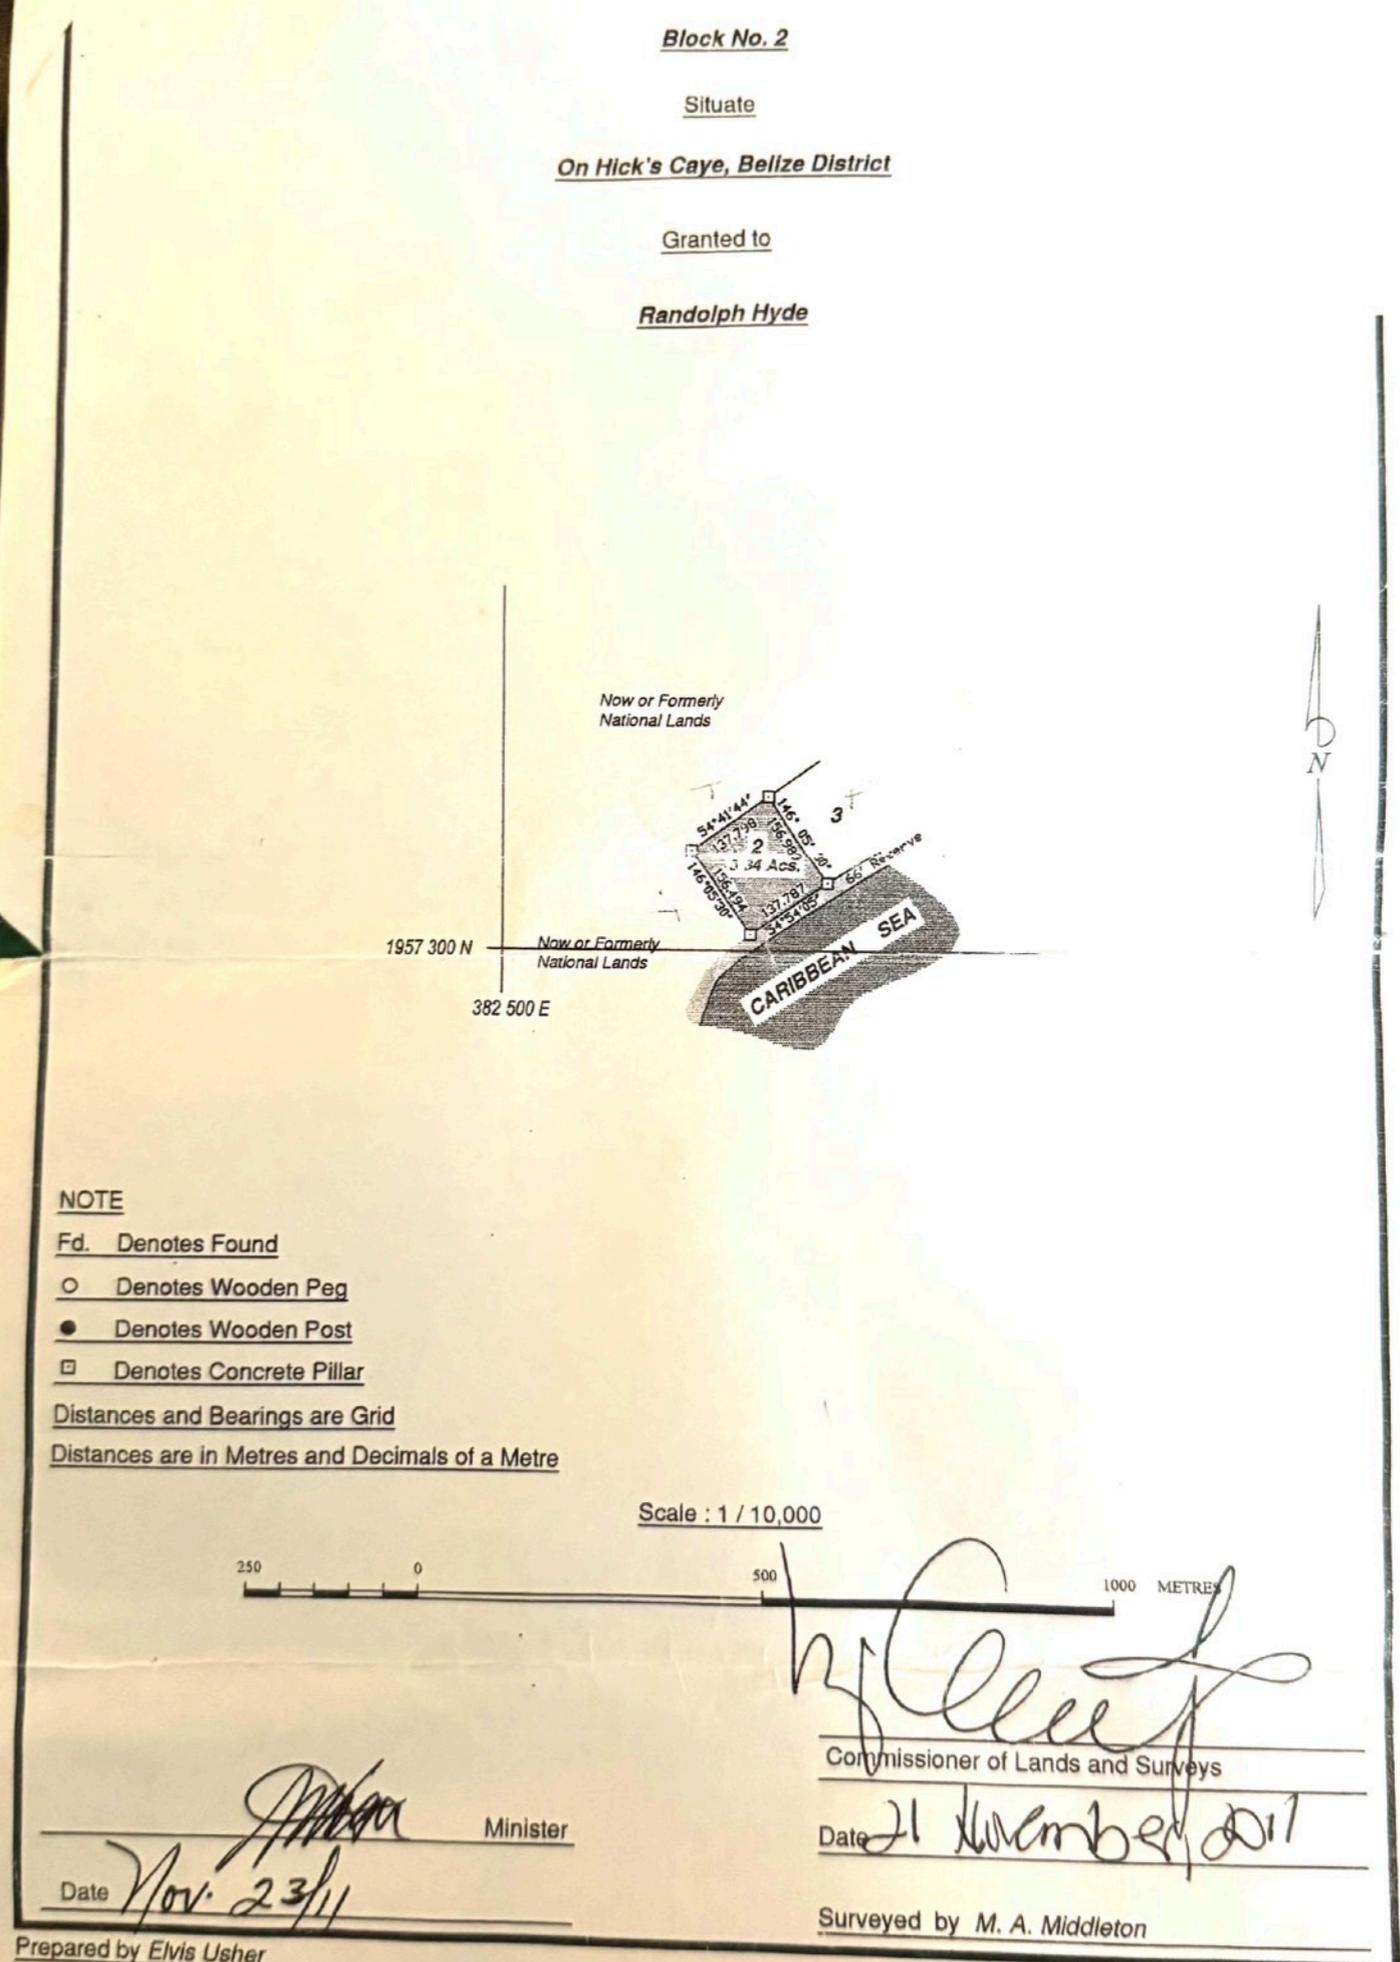

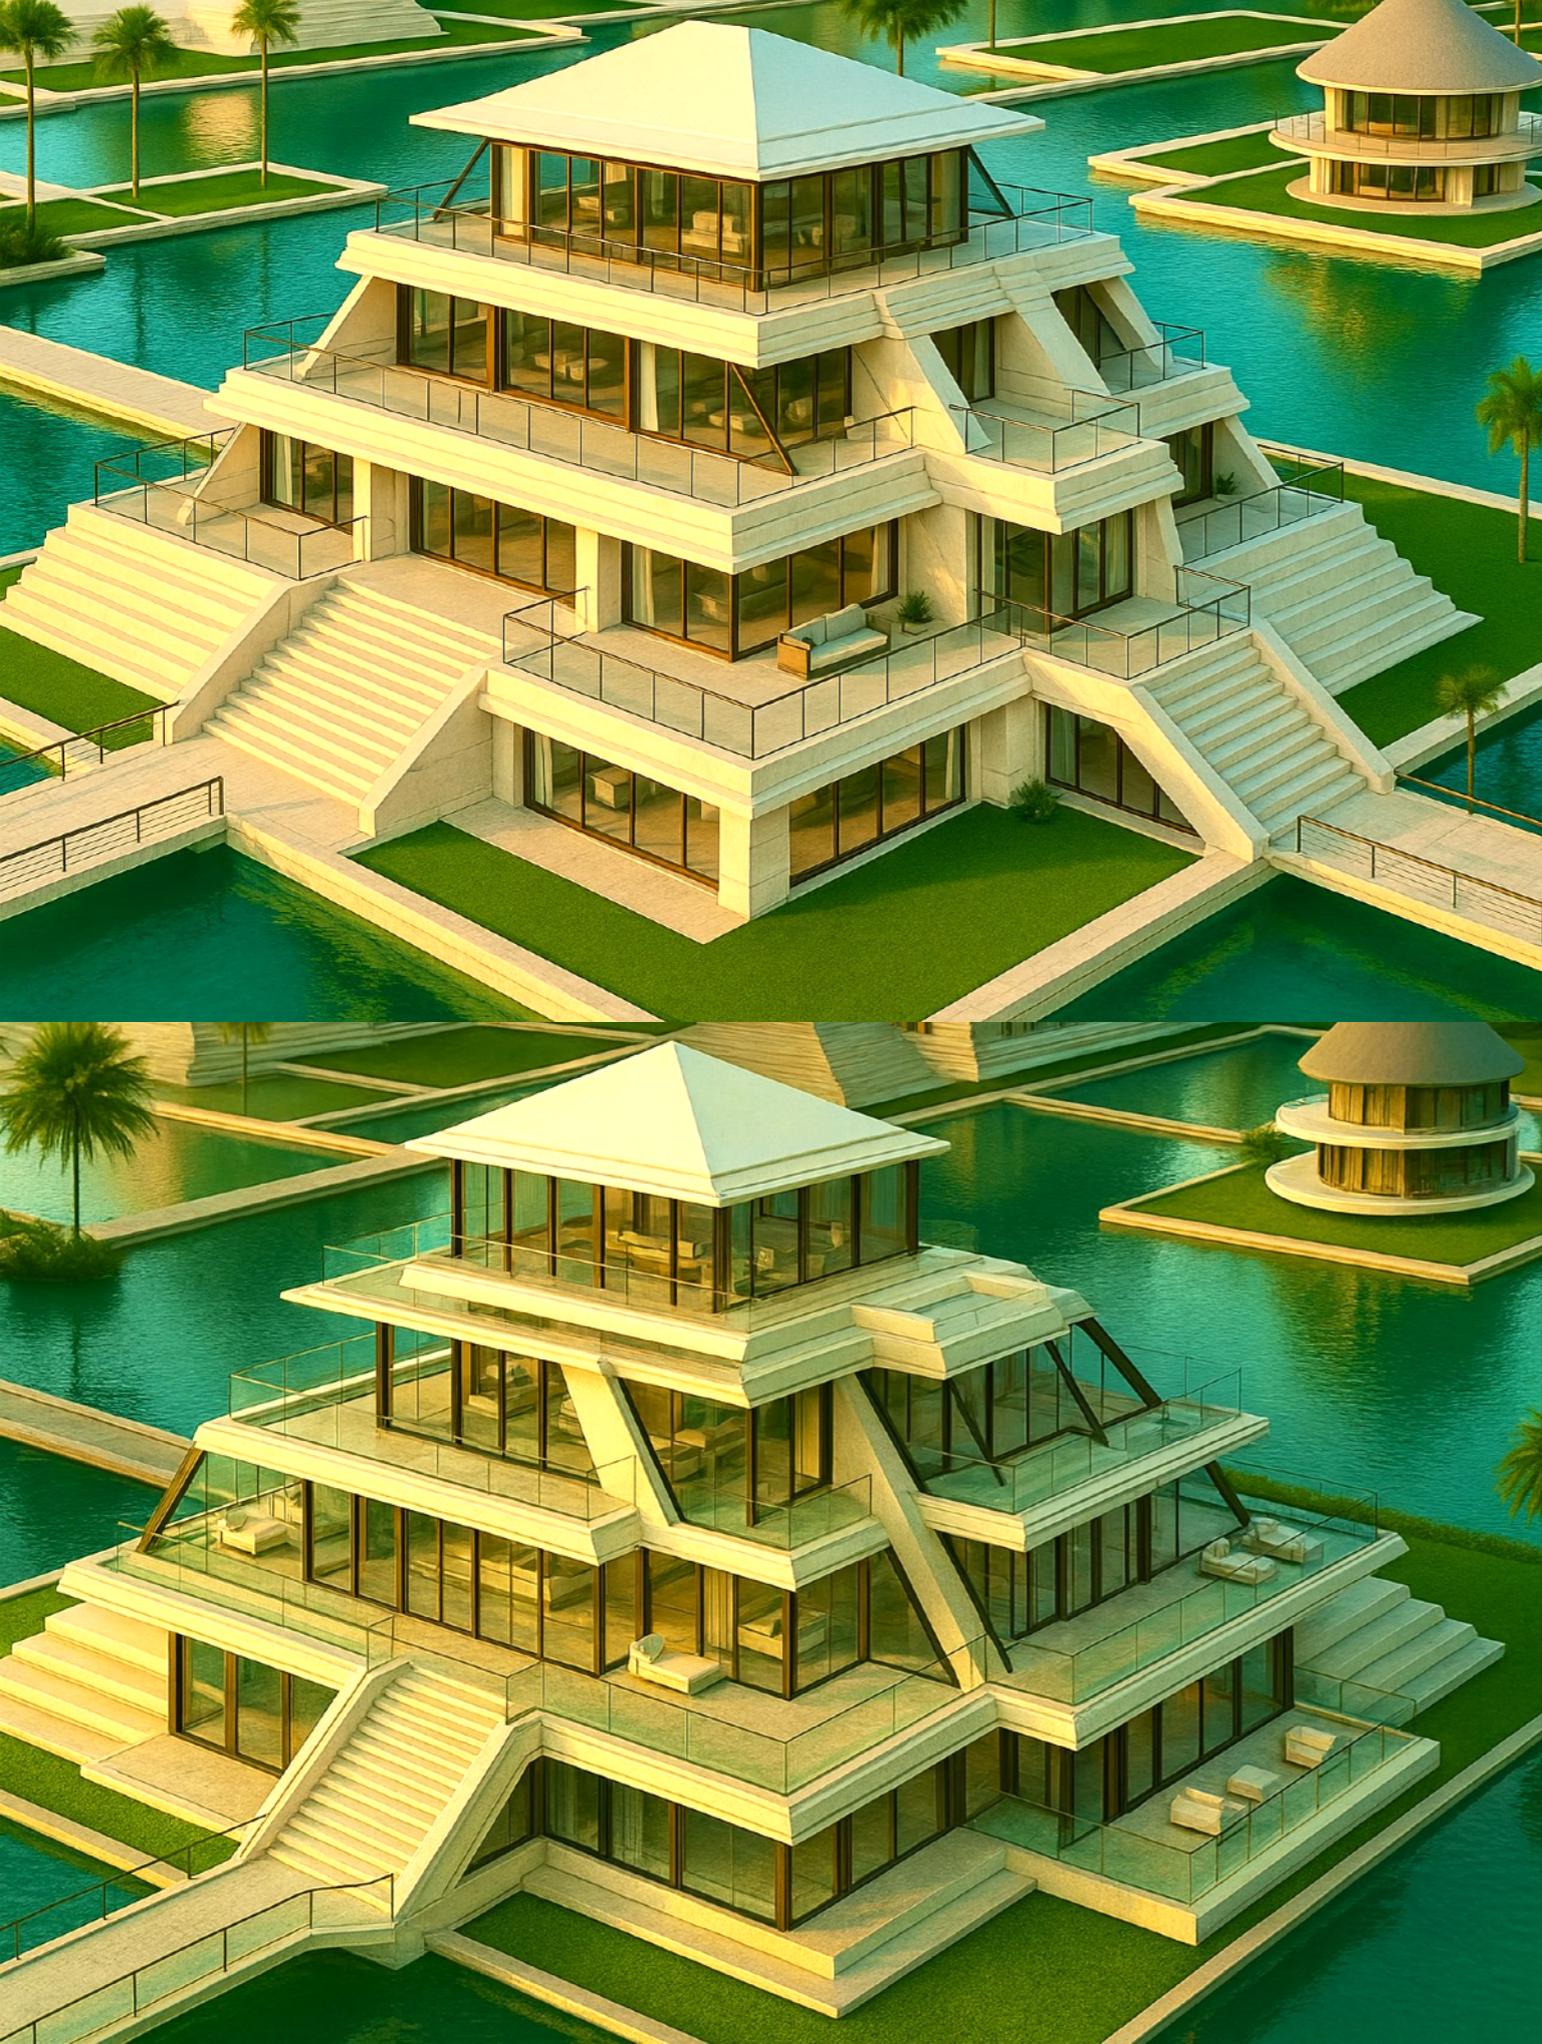

# BAYMEN'S COVE RESORT BOUTIQUE LUXURY

## HICK'S CAYE PROPERTY BELIZE

The Bayment's Cove Resort is built on the irreplaceable asset of Hick's Caye, a valuable property secured within the Hyde family estate. Anchored by the 386-year Hyde legacy in Belize, this project represents a premier opportunity in a strategic Caribbean location. As Belize experiences a robust boom in luxury eco-tourism, this development will instantly capitalize on the high-net-worth traveler market. The architectural vision, inspired by grand Mesoamerican water cities and the tailored aesthetic of the Hyde brand, is set to create a world-class, distinctive boutique resort that promises both cultural resonance and exceptional financial returns.

**Global Strategy and Profitability:** This venture is a critical strategic move, transforming the Hyde fashion house into a comprehensive global luxury lifestyle brand. We are expanding beyond retail to establish a significant, reliable revenue stream in high-end hospitality. This integration expands our market relevance, associating the Hyde name with exclusive destinations and unparalleled design. We seek Investment Partners to join us in unlocking the immense potential of this irreplaceable property, capitalizing on market timing, and elevating a proud Belizean heritage brand onto the global stage while ensuring long-term profitability and growth.

Introducing the Baymen's Cove Resort, the boldest extension of the Sylvian Hyde legacy.

Inspired by the grandeur of ancient Mesoamerican water cities and the romance of Belize's Caribbean coast, this destination is a breathtaking architectural feat. Pyramid-style villas rise from artificial islands, blending Mayan reverence with neoclassical luxury and tailoring.

The Baymen's Cove Resort is more than a hotel, it's an exclusive, water-bound sanctuary that transforms the Hyde Group's 386-year heritage into a global luxury brand experience.

Welcome to the future of Belizean elegance.

# INSPIRED DESIGN MEETS TECH!

## MILLENNIAL DESIGNER

The Sylvian Hyde brand operates at the cutting edge of design and technology, proving that the digital age is a powerful catalyst for creativity, not a replacement for it. Born in the millennial generation, Designer Sylvian Hyde seamlessly integrates advanced tools to enhance a 386-year-old heritage.

Our process honors the initial spark of creativity, beginning with hand-sketched concepts before leveraging tools like the iPad Pro for rapid, precise design transformation. This hybrid approach allows for unparalleled efficiency in developing everything from couture outerwear to bespoke client commissions.

Crucially, technology extends to our client experience. We utilize mobile wallet integration like the featured HYDE Founders Club pass to manage exclusive loyalty programs, bespoke client relationships, and membership status. This system ensures unparalleled service and discretion for our couture clientele, demonstrating a commitment to innovation that keeps the Hyde brand profitable and relevant in the 21st-century luxury market.

The core of this revolution is the use of AI technology to instantly transform initial sketches into photorealistic digital renders. This allows clients to see precisely what their custom commission will look like, eliminating the guesswork that defined traditional couture. This digital synergy streamlines communication regarding fabric swatches and intricate adjustments, guaranteeing unprecedented accuracy, speed, and discretion. # REBEL

## DNA

The Hyde brand is an act of rebellion, a declaration that global luxury and ancient heritage are not exclusively the domain of European houses. We are a Black-owned heritage brand from Belize, charting a new path where our history is our greatest asset.

### **A History of Defiance**

Our lineage is rooted in empowerment. While our ancestor James Hyde was an agent of British Honduras, his son, George Hyde (a free person of color), famously petitioned the colonial office in the 1800s for people of color to hold political office and military rank. This legacy of defiance and advocacy is the REBEL DNA that inspires our brand today.

### **Luxury as Empowerment**

In a world defined by wealth inequality, developing a world-class luxury brand and the Baymen's Cove Resort on family land, concept cars for the future is a potent act of empowerment. Our success is not just commercial; it is a cultural correction. We use fashion and hospitality to reclaim our narrative, elevate Belizean excellence, and build generational wealth.

The Hyde brand is designed for the bold, the defiant, and the leaders who understand that true luxury is about controlling your own destiny.

# BELIZEAN HERITAGE & LUXURY

EST. 1638

The Hyde brand champions the profound depth and relaxed luxury of Belize, the only English-speaking nation in Central America and a true "Melting Pot".

Our family's origins are deeply rooted in global textiles. Before the modern fashion house, the Hyde and Hodge Co. were colonial exporters of Logwood, a vital commodity used to create dyes for the British textile industry.

As designer, I am reclaiming this history. Our aesthetic, from the Artifact Collection jewelry to our couture apparel, directly translates this rich Belizean narrative into contemporary luxury fashion. We are positioning our heritage as the next essential global export, ensuring the Hyde Brand's continued prominence in the world of luxury.

# HYDE'S LANE HIGH STREET

EST. 1638

**Hyde's Lane** in Belize City is more than a geographic marker; it is the historical starting point for a brand that is now taking the global High Street by storm. The Sylvian Hyde collections defy traditional luxury norms, offering a dynamic and disruptive aesthetic that appeals to the modern luxury consumer.

## The New Era of Tailoring

Our designs are rooted in the concept of innovative tailoring, seamlessly blending high-fashion silhouettes with unexpected, cutting-edge materials. This is where the world of fashion, architecture, and technology meet:

- **Disruptive Fabrics:** We create elegant, highly stylized pieces like suits crafted from **athletic mesh** and tailored pants built from PVC-coated **spandex** with strategically placed seams.
- **Bold Aesthetics:** The designs showcase a fearless use of color, pattern, and texture, delivering a maximalist impact that is both sophisticated and instantly recognizable.

The **Hyde** brand is successfully exporting the spirit of Belize, boldness, heritage, and unique design, to the global market, proving the viability and excitement of our commercial appeal.

The legacy of HYDE is deeply intertwined with the rich history of Belize's logwood and mahogany industries, reflecting a heritage of resilience, craftsmanship, and global influence. In the 17th century, British settlers known as Baymen established logging camps in the swamplands of what is now Belize, harvesting logwood, a valuable source of black, blue, and purple textile dyes derived from the trees' red heartwood. This burgeoning industry laid the foundation for the settlement's economy and cultural development.

As the demand for logwood declined, attention shifted to the abundant mahogany forests. Mahogany became highly prized for its use in furniture, shipbuilding, and construction, leading to a robust export industry that significantly shaped Belize's economic landscape. The extraction and exportation of these precious woods were central to the colony's identity and growth. James Hyde, a prominent figure in this era, played a crucial role in the development of Belize's mahogany trade. Operating as a merchant and mahogany cutter, Hyde's enterprise not only contributed to the local economy but also established strong commercial ties with Britain. His legacy is a testament to the enduring connection between Belize's natural resources and its cultural heritage.

The visual narrative of this history is captured in images depicting the transportation of logs downriver to mills in downtown Belize City, a testament to the labor and industry that defined the era. These scenes are emblematic of the country's rich tradition of craftsmanship and trade. At HYDE, we honor this heritage by infusing our designs with the spirit of Belize's history, celebrating the artistry, resilience, and cultural wealth that continue to inspire and define our brand.

# A LEGACY IN STONE

Lamanai, derived from the Yucatec Maya term for "submerged crocodile," is one of Belize's most significant archaeological sites, boasting a continuous occupation spanning over 3,000 years, from the Early Pre-classic period (circa 1500 BC) through the Spanish and British Colonial eras, into the 20th century.

In the mid-19th century, the British firm Hyde, Hodge, and Company acquired approximately 200 acres at Lamanai to establish a sugar plantation and constructed a steam-powered sugar mill around 1860. This venture, however, was short-lived, ceasing operations by approximately 1875. The remnants of this sugar mill, located near the ancient Maya temples, stand as a testament to the site's rich and layered history, reflecting a fusion of indigenous Maya civilization and European industrial ambitions.

At HYDE, we honor this heritage by infusing our designs with the spirit of Belize's history, celebrating the artistry, resilience, and cultural wealth that continue to inspire and define our brand.

# LAMANAÏ

# LEGACY IN STONE, POWER IN DESIGN

**THE FINAL WORD: A TESTAMENT TO TIME**

Lamanai, the longest-occupied Maya city in history, stands as a monument to resilience, vision, and mastery. Rising above the jungle, its towering temples reflect the ingenuity of those who built them, just as HYDE designs stand as modern-day testaments to craftsmanship and innovation.

Like the Maya architects, we embrace precision, structure, and bold silhouettes, shaping garments that transcend time and trends. Our work is more than fashion, it's a legacy woven into fabric, a movement sculpted in form, a tribute to history with eyes set firmly on the future.

This is just the beginning. Welcome to the world of HYDE.
